

ÓBUDA UNIVERSITY  
YBL MIKLÓS FACULTY OF ARCHITECTURE  
AND CIVIL ENGINEERING

# CALL FOR ABSTRACTS

YBL210: BUILDING BRIDGES, CRAFTING COMMUNITIES:  
TOGETHER IN ARCHITECTURE

2ND YBL CONFERENCE ON THE BUILT ENVIRONMENT  
BUDAPEST, HUNGARY 17 MAY, 2024

*Ybl Miklós born 210 years ago, remains a timeless beacon in the realm of architecture. Renowned as a polyhistor, his multifaceted talents illuminated the discipline with unparalleled brilliance. Today, as we ardently pursue a holistic approach in architecture, we stand on the shoulders of giants like Ybl, recognizing that true mastery of this art demands collaboration. In our contemporary landscape, the complexity of architectural challenges necessitates the convergence of diverse expertise. Only through the concerted efforts of multiple professionals - architects, engineers, urban planners, and more - can we hope to attain the holistic vision that Ybl himself embodied. Let us honor his legacy by embracing collaboration, forging synergies, and collectively striving towards architectural excellence that transcends the boundaries of time and discipline.*

**Venue:**

Óbuda University Ybl Miklós Faculty of Architecture and Civil Engineering (74 Thököly street, District 14, 1146 Budapest)

**Organized by:**

Institute of Architecture, Óbuda University Ybl Miklós Faculty of Architecture and Civil Engineering

**Language:**

Scientific language of the conference: English  
Presentations and posters: English or Hungarian

**Topics include but not limited to:**

- History of Architecture and Heritage Protection
- Theory of Architecture and Design
- Innovative Building Constructions and Materials
- Contemporary Design and Visualization
- Parametric/Generative Architecture
- Artificial Intelligence and Architecture
- Methodology in Architectural and Engineering Education
- Building/City Energetics
- Urban Development and Communities
- Transport and Infrastructure

**Conference participation is free of charge, only registration required.**

**Deadlines:**

- 2 April, 2024  
Registration and digital abstract submission (for presentations, posters and papers)
- 2 May, 2024  
Poster digital submission (printed version to be brought to the conference)
- 15 June, 2024  
Full Paper submission

All accepted abstracts will be published in the online **Conference Proceedings** with ISBN number.

**Selected English language papers will be published** in the special issue of:

**Ybl Journal of Built Environment**

open-access, double blind review, indexed in multiple databases through Scimago

**Selected Hungarian papers will be published** in Magyar Építőművészet or Magyar Építőipar following a review process
